SEPTEMBER 2026 | MANAGEMENT SUMMARY

Monthly management report

> **Revenue grew +4.8% to $460k in September 2026, -2.2% versus target, but a jump in churn to 3.1% is the one issue that needs a decision this month.**

WHY: THE THREE THINGS THAT MATTER

1. Growth is on track: revenue +4.8% month on month and new customers beat plan
2. Retention slipped: churn rose to 3.1% from 1.9%
3. Unit economics are tightening: margin -1.9 pp, CAC +8.5%

COMMENTARY

What is behind the numbers

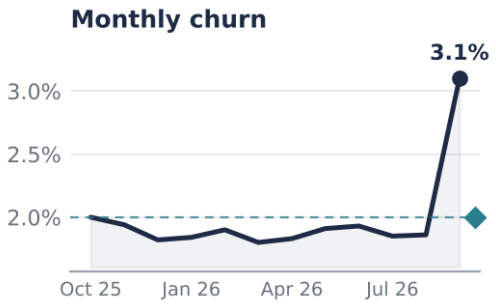

1. Growth is on track: revenue +4.8% month on month and new customers beat plan

Revenue reached $460k against a target of $470k (-2.2%). New-customer adds were 170 versus a plan of 165, so the shortfall is on the existing base, not on acquisition.

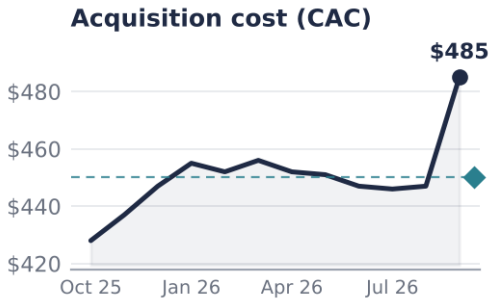

2. Retention slipped: churn rose to 3.1% from 1.9%

Churn was 3.1% against a 2.0% ceiling, the first miss this year. Cancellations are concentrated in customers who signed up on the annual-discount promotion in Q4 last year and reached their first renewal.

3. Unit economics are tightening: margin -1.9 pp, CAC +8.5%

Gross margin was 60.2% (target 62.0%), mainly from higher freight costs. CAC rose to $485 as paid channels got more expensive. Cash remains healthy at $813k, +1.6% against the minimum we set.

RISKS TO WATCH
